***Response to Arguments***

1. Applicant's arguments, see Remarks, filed 3/12/2007, with respect to claims 1-8,10,12-23,25 and 27-46 have been fully considered and are persuasive. The 103 rejections of Office Action 12/12/2006 has been withdrawn.

**EXAMINER'S STATEMENTS OF REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: Claims 1-8,10,12-23,25 and 27-46 are allowable over prior art references because related references do not disclose frequency hopping method/apparatus which selects a hop channel as a function of a present phase value, wherein if the hop channel belongs to a set of forbidden hop channels, using a time-varying parameter, at the present phase value, which is independent of conditions on the physical channel to select a substitute hop channel, wherein each forbidden hop channel is mapped onto each allowable hop with equal probability.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
